

CABSAT & Satellite MENA - The World's 3rd Largest Interactive Broadcast & Satellite Event!

CABSAT 2011 features exciting new camera workshops

8 - 10 February 2011

CABSAT Academy, Sheikh Saeed Halls

February 8th
EOS cameras and XF camcorders- Canon

Canon product managers will lead an overview of the latest HD/SLR and Camcorder innovations and will be followed by presentations from expert directors of photography who will screen their footage and discuss their shooting techniques.

Workflow and accessories will be highlighted as well— viewfinders to NLEs – as we spotlight the options available to bring these images to the television and screen.

February 9th
3D Production – 3ality Digital

Lucas Wilson, a stereography and post production expert and director of Business Development for 3ality, will lead an overview of 3D Production from concept through delivery. 3ality Digital is focused on creating 3D tools and has gathered a series of best practices and solutions which will be presented in this workshop along with workflow solutions from leading technology providers.

February 10th
RED ONE and EPIC– RED Digital Cinema

finishing.

Case Studies of recent projects shot on RED, covering dailies creation, offline and online editing and Finishing up to 4k resolution. Learn why the RED cameras are the easiest and most logical cameras to shoot and take through post production and are vastly superior to HD level imaging tools

For more information on the workshops please email cabsat@dwtc.com

Show timings:

8 – 9 February 10am – 6pm

10 February 10am – 5pm
