

Hyperion

WeTek Hyperion is a powerful 4K UHD AndroidTV™ Set-top Box. It can be used as a domestic router allowing other devices at home such as computers, gaming consoles, tablets, and more to connect to the internet. Hyperion is not only a set-top box but also a complete home hub capable of providing the best video quality, user's favorite Android™ applications and routing all internet traffic at home.

HARDWARE SPECS

Core Processor	AMLogic S905D quad core ARM Cortex-A53 SoC up to 2.0 GHz, 18400 DMIPS
Graphic Processor	Penta-core ARM Mali-450 GPU up to 750MHz
RAM	2 GB DDR3 RAM
Flash	16 GB eMMC 5.0

NETWORK CONNECTIVITY

Ethernet	10/100/1000 Mbit
Wireless	802.11 a/c/b/g/n, Dual-band Wi-Fi 2.4GHz/5GHz Optional: 802.11 AC MiMo Dual-band Wi-Fi 2.4GHz/5GHz
Bluetooth	Bluetooth 4.0

4G LTE MODEM

Frequencies GSM Modem	LTE-FDD: B2/B4/B5/B12/B13/B17/B25/B26 LTE-TDD: B41
Supported Speeds	Download up to 150 (Mbps). Upload up to 50 (Mbps)

SOFTWARE SPECS

Android Version	Android Nougat 7.1.2 and Android Oreo 8.0
DRM	ARM TrustZone SecureOS with Google Widevine Level 1 and Microsoft PlayReady 2.5 & 3.0 for secured, premium content playback.

VIDEO AND AUDIO CONNECTIVITY

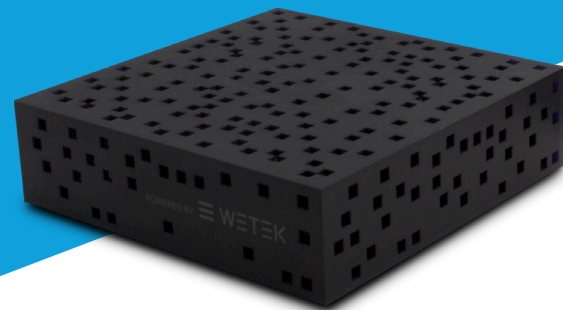

Digital AV	HDMI 2.0a (CEC,HDR,HDCP 1.1/2.2)
Analog AV	Mini Jack Analog AV Output

ACCESSORIES

Power Supply	CE/ROHS Standard 5V 2A 3KV Electrical Surge
Cables	HDMI Cable 1,2 Meters Optional: 1 Meter IR extender

Nix

WeTek Nix is a powerful and ultra-compact Android OTT streaming device. It has been engineered to respond to the most demanding needs of media consumption including 4K UHD and HDR. Besides providing the best video quality for linear TV and streaming services, as well as boasting user's favorite Android™ applications, this device is totally customizable to match your needs and your brand's look and feel.
